RADICS - BASED I&C SOLUTIONS: ADDING VALUES FOR NPP SAFETY AND PROFITABILITY

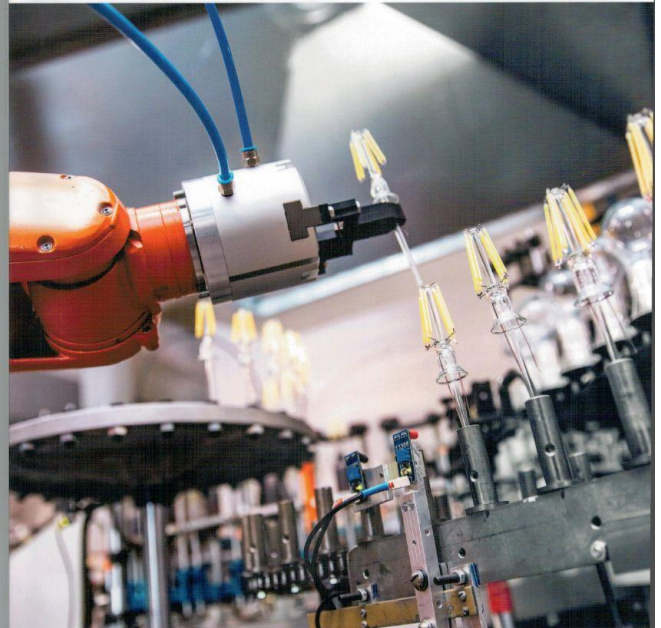

RadICS platform, approved by U.S. NRC on July 31, 2019, provides state-of-the-art safety functions and possesses the following cost benefit features:

- **High Reliability with Fault Tolerant Features** that are based on IEC 61508 SIL 3 certification.
- **Simpler Maintenance and Repair** due to the advanced diagnostic and monitoring features.
- **Surveillance Testing Optimization** due to extensive self-diagnostic testing features to reduce burdens on plant personnel.
- **Lower regulatory risks** because it has the newest and most complete NRC-approved Topical Report.
- **Unique diversity strategy approved by NRC.** No need for a Diverse Actuation System.
