

## ANGLE-HEAD GU 90-3

### PRODUCT HIGHLIGHTS

Angle-head GU90-3 is designed for use in steering control systems of vehicles with steering booster to supply torque transmission from vehicle steering shaft to input steering shaft at their axis criss-cross.

### TECHNICAL SPECIFICATIONS

Axial angle of input and output shaft	90°
Torque transmitting capacity , Nm	125
Reduction ratio	1,0
Maximum static torque, Nm	500
Mechanical play, max time ,min	30
Input shaft torque moment at released output shaft, Nm	0,8
Weight , kg	5,5

### APPLICATION

- ▶ Buses
- ▶ Trolleybuses
- ▶ Commercial vehicle
