

VALVE UNIT KK-1

PRODUCT HIGHLIGHTS

Valve Unit KK-1 is designed for installation in the vehicle's hydraulic system to regulate pressure in supply line of steering device by pressure cut-off valve.

TECHNICAL SPECIFICATIONS

Pressure range of valve actuation, MPa	9,0...10,5
Overall dimensions, mm, maximum	
- length	100
- width	95
- height	32
Weight, kg, maximum	0,35

APPLICATION

- ▶ Buses
- ▶ Commercial vehicle
